PROFESSIONAL SUMMARY

Property management professional who pairs hands-on leasing and operations experience with a strong, data-driven digital marketing background — paid social and search advertising (Meta / Google Ads), SEO, email, social media, analytics, and brand building. Proven track record launching and growing products through measurable digital campaigns and content. Combines on-the-ground property and leasing knowledge with modern marketing execution to drive occupancy, engagement, and brand consistency across a portfolio. Highly analytical, organized, and self-motivated, with strong communication skills built across high-stakes, customer-facing roles.
