

MATTHEW KERR

AI Product Builder · Ships real products with AI

Grand Rapids, MI · 616-888-9558 · Mattkerr09@gmail.com

outlier.host · github.com/mattkerr09 · hf.co/Outlier-Ai · linkedin.com/in/matthew-kerr9

SUMMARY

Self-taught builder who uses AI to ship real, monetized products. I direct AI agents and tools to take software from idea to launch — then grow it in public. Shipped **Outlier** (a notarized macOS AI app with paying subscribers and 5,000+ monthly model downloads), a multi-agent automation framework, and **Crisp**, an offline AI video upscaler — all solo. Strongest at turning an idea into a shipped product and explaining it clearly to developers and users. Former EMT and operator: calm under pressure, relentless about shipping.

WHAT I DO

AI Building & Orchestration: Directing AI agents and coding assistants (Claude + LLMs) to build and ship software · prompt engineering · agentic workflows (MCP) · rapid prototyping to production

Product & Shipping: 0→1 product development · end-to-end shipping · subscription pricing & monetization · notarized macOS distribution · build-in-public go-to-market

Applied AI Fluency (product level): Local / on-device LLMs · model selection & benchmarking · mixture-of-experts & quantization tradeoffs · inference cost/performance — evaluated to make product decisions, not implemented by hand

Growth & Analytics: Build-in-public audience growth · PostHog · Google Analytics · Meta / Google Ads · Shopify

Tools: Claude & LLMs · AI agents / MCP · Stripe · HuggingFace · PostHog · Google Analytics · Shopify

Domain Experience: Healthcare / EMS · property management · real estate · e-commerce · banking & customer service

SELECTED WORK

Outlier — Founder & Builder

2025 – Present

outlier.host — Private, offline AI for macOS; a local alternative to ChatGPT and Claude.

- Conceived, built, and shipped a **notarized macOS app** that runs open-weight models up to 397B parameters fully offline on Apple Silicon — directing AI tools to develop it end-to-end as a solo, non-traditional builder.
- Launched a **live subscription business** (Free / Pro / Lifetime) with paying customers and a build-in-public founding community.
- Published **42 open models** (4-bit / MLX builds for Apple Silicon) on HuggingFace — 5,000+ downloads per month.
- Drove every product decision — model selection, packaging, positioning, benchmarking — to ship something people pay for.
- Authored and filed **3 provisional U.S. patents** on novel AI inference methods.

Crisp — Offline AI Video Upscaler & Restorer (macOS)

2026 · Personal project

Turns low-quality / damaged video into clean 4K, 100% on-device — the offline alternative to Topaz Video AI.

- Conceived and built the product solo by **directing AI tools** — from concept to a signed, packaged macOS app.
- Designed the core product bet: a **one-drop AUTO workflow** that reads each clip's resolution, noise, and lighting and auto-selects model and settings — replacing competitors' 15-model “model zoo” with a single drag-and-drop.
- Drove the offline-first, on-device positioning (privacy, no subscription) as the wedge against cloud incumbents.
- Built on a two-tier engine (fast upscaling + a generative restore pass) on Apple Silicon; hardened through real-app dogfooding and an objective quality-eval approach.

Jarvis Factory — Founder & Builder

2026 – Present

Autonomous multi-agent framework for building and running software businesses.

- Built a Supervisor-Agent-Memory system that orchestrates 50+ AI agents over MCP to run software-business tasks — assembled by directing AI tools.
- Shipped a live revenue product (ProposalAI) with Stripe payments.
- Designed for local-first operation with sandboxed agent execution.

PROFESSIONAL EXPERIENCE

Kerr & Company LLC — Founder

2021 – Present

Grand Rapids, MI

- Since 2025, building and shipping AI products using AI tools (Outlier, Crisp, Jarvis Factory — see Selected Work above).
- Executed a full property rehabilitation with strong ARV gain (\$85K purchase / \$30K rehab / \$210K ARV); managed leasing, rent collection, and contractor coordination.

KMG — Property Manager

Nov 2025 – Present

Grand Rapids, MI

- Manage daily operations for residential properties; coordinate maintenance, vendors, and tenant relations.
- Conduct LIHTC income recertifications with strict documentation and compliance accuracy.

Life EMS — EMT

Jun 2023 – Jun 2025

Grand Rapids, MI

- Made calm, accurate decisions in high-pressure, time-critical situations; maintained legally compliant documentation.

Street Outfitters — Founder, E-commerce & Digital Marketing

2018 – 2019

Online

- Built and ran a Shopify store end-to-end — branding, listings, fulfillment — and drove traffic with Facebook/Google Ads and pixel-based analytics.

Fifth Third Bank — Customer Service Representative

2019 – 2020

Comstock Park, MI

- #1 CSR in West Michigan with \$0 in losses for the year across high call/email volume.

EDUCATION & CERTIFICATIONS

- **Business Administration (in progress)** — Kalamazoo Valley Community College, 2024–Present
- **EMT-B Certification** — Dorsey College, 2023
- **Michigan Real Estate License** — active through 03/2027
